Professional summary

As a web developer, I bring a unique set of skills and experience that make me a valuable addition to any team. I have a solid foundation in programming languages such as HTML, CSS, and JavaScript, as well as experience with frameworks like React, Angular, and Vue. Additionally, I am well-versed in server-side technologies like Node.js, and have experience working with databases like MySQL and MongoDB.

But beyond technical skills, I am a team player who values collaboration and communication. I thrive in environments where I can work with others to solve complex problems and create innovative solutions. I am also dedicated to staying up-to-date with the latest technologies and industry trends, ensuring that my work is always of the highest quality.

Overall, I believe that my technical expertise, collaborative mindset, and commitment to excellence make me an ideal candidate for any web development role.

Work history

January 2023 - April 2023

None - Lagos, Nigeria

Junior Web Developer

- ➢ Developed abilities in cutting-edge back end technologies Django and React.
- ➢ Assessed successes and failures of technical deliveries to promote seamless integration in future advancements.
- ➢ Designed web pages to enhance branding and navigation.
- ➢ Created custom websites by harnessing HTML, CSS and JavaScript skills.
- ➢ Enhanced front-end performance through image optimisation and clean coding practices, accelerating load times.
